

# Electronics recycling is coming to your door!

For two days, volunteers from the Edson & District Recycling Society will go door-to-door collecting old electronics for recycling and in return Alberta Recycling will provide funding for your community.

**Friday, September 18th and September 19th we're collecting these electronics!**

**TVs • Computer Equipment • Copiers • Scanners • Fax Machines**

**AND we'll also be collecting all other electronics that are powered by a battery, or plug into the wall! (With the exception of fridges, stoves, and other large appliances and gas-powered equipment.)**

- Small Kitchen and Household Appliances
- Personal Appliances
- Stereo Equipment and other Home Entertainment Products
- Power Tools

**We'll pick them up from HOME!**

No need to dust them off, just show us where they are and we'll dig them out for recycling.

**We'll pick them up at WORK!**

In your office, storage area, or lunchroom, point them out and we'll pick them up.

Call the Town Office at **780-723-4403**, between 8:00 am and 4:00 pm by September 16, 2015 to get your name and your items on the list for pick up. **OR, register online at [www.westyellowheadrecycles.ca](http://www.westyellowheadrecycles.ca).**

Visit **[www.edson.ca/residents/recycling-depot](http://www.edson.ca/residents/recycling-depot)** for a complete listing of products we're collecting.
